Emperors of Germany and Austria, at Garstein for the often exaggerate reports that are spread upand at Salzburg, have undoubtedly resulted in an the appearance of any symptoms of disturbance on or rulers and their respective Ministers, Counts Bismarck and Beust. Russia looks on jealously, and continues arming vigorously, while Sweden, whether prompted by Russia or not, is about "reorganizing" her army. France and Italy, in the persons of Thiers and the Italian Ambassador at are told, the desire of Italy to have a good understanding with France, is dwelt upon. And to dar conclude the signs of the times, Thiers and Gortschakoff are shortly to meet in conference at some quiet town in Switzerland. To sum it all up-Prussia would like to have the Baltic harbors of Russia; Austria, fearing Russia's chronic impulse to extend southward, will join Prussia; France, under vastly altered circumstances from those of 1856, is no longer solicitous for the integrity of the "sick man" of Europe, and will heartily join Russia for the hope of revenge on Prussia; and Italy can form no alliance with Austria, her old enemy, consequently she will side with France. Thus the great European game appears to be made up, in which England, so far, takes no hand. America, happily divided from the scene of coming conflict by a wide and stormy ocean, busies herself in developing the boundless resources of her vast domain, and in carrying out the idea that that people is best

governed which is governed least. WE publish in to-day's issue (in supplement) a sermon preached by the Rev. Dr. Stone, to his which never wears out. THE BIRDS .- It is interesting to note how rapidly some of the imported birds are increasing in our valleys and woods. Linnets, with their sweet silvery notes, are to be seen by the hundreds, of a morning early, and scores of Miners and bright plumaged paroquets. The California quails are plentiful at Waialua, as well as on Kausi. We hope that nobody

ever shoots the quails. ---WANTED TO GET EVEN .- Last Mondyy, after the Moses Taylor had swung off from the wharf, a seaman belonging to the Nevoda, who was on board somewhat drunk, on being teld to go ashore by the mate, refused to do so, declaring that he did'nt want to go to New Zealand, but was bound to San Francisco. Whereupon the mate unceremoniously tossed him overboard. Swimming to the wharf, he clambered up, and looking after the retreating stenmer, shook his fist at the mate, saying, " I'll get even with

you, yet, old fellow." -EARTHQUAKE ON HAWAII .- Hilo and its vicinity was visited with a short but severe shock on Wednesday the 12th inst., at about half an hour afternoon (mentioned by our correspondent). The shook was very much like the one of 1868, but only laste twenty seconds. The wave of motion was from west to Northeast, and was felt quite distinctly to say severely, at Onomea. In town, a quantity of stone-wall was frostrated, and in several house small article, vases, bottle &c., were tipped over. At Kalwiki, persons at work out doors were made quite see sick, and though owing to the shortness of time that the motion continued, its effects were not so violent still it was equal in intensity to the last " great

Police Court.-Kem a Chinaman, was ar ligard for the larceny of \$10, the property of an old named Kekaha. The latter left a bag contain the amount on the sidewalk, while he went to buy milk, and them went off and forgot his money persons saw the Chinaman pick up the bag and hurried by secrete it on his person. On being confirmed with Kekaha, he denied having the money, when he was arrested and twelve dollars in silver besides other coin, found in his pocket. He was found gollty of the charge, and sentenced to one years imprisonment at hard labor, and to pay \$1 fine. A native amployed about the Custom-house store rooms, was comvicted of stealing therefrom sundry dozens of builder of spirits, amounting in value to some \$50. He was sentenced to two years imprisonment at hard labor.

THE OUTBREAK ON MAUNA-LOA .- From a party that visited the scene of the late outbreak on Manne Lon, (to which reference was made a short time since,) we understand that the eruption took place in an all crater about five miles down from Maknaw the top crater-and that it was not accompanied by any flow of lava.
